TECH EXPERIENCE

Frontend Developer @ Geckotech

 Almere / Hybrid  Jul. 2020 – present

- Developing JavaScript web and mobile applications primarily in Angular;
- Collaborating with product owners, colleagues, third-party development teams and designers to concept, implement and ship multiple features and bug fixes;
- Managing iOS and Android app releases across the full software development life cycle;
- Contributing to improve code quality, as well as maintaining existing libraries and updating frameworks.
